Tubular Sway Bars

Hellwig Motorsports tubular sway bars are made of high strength steel. Some are solid, others are tubular DOM steel to maximize handling performance at half the weight of a solid bar. Hellwig solid sway bars are made from 170,000 psi heat-treated chrome moly steel for strength and have forged ends - never welded! Kits include sway bar, frame bushings, link pins, bushings and hardware.

RE SUSPENSION incorporated

RE Spring Divider with Delrin Inserts

RE suspension's all new aluminum dual spring divider is engineered for durability. Using replaceable Delrin inserts increases durability for a smoother operation. Typically used on the right front of dirt late model cars, the dual spring divider allows the car to initiate movement by starting with a softer spring, then eventually hitting the spring divider utilizing a pre-determined stiffer spring. Adjustment is made by changing the gap between the locknut and the spring divider.

Hardcore Locking Hub Kits

Heavy-duty, steel lockout hubs use chrome moly internals for ultimate durability. A 1/3 turn engages the hubs, which will not disengage under high torque applications. A hardcore proprietary coating on the locking gears decreases friction and wear. Low profile design minimizes impact with obstacles. Hubs have a five-year warranty against manufacturer defects.

GM TH-350 Shift Improver Kit
BMM30262 $33.99 Kit

The B&M Shift Improver Kit, for 1968-81 GM TH-350, is inexpensive, easy to install and improves shift feel and quickness of any stock automatic transmission. Sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage are eliminated, and transmission life is extended.

Starshifter
BMM80675 $156.99 Each

A combination detent/ratchet style shifter. In the normal mode, it's a standard detent shifter. When the lever is in low, lift the trigger all the way and pull the stick back to convert to ratchet action. Fits GM, Ford and Chrysler 3-Speed Automatics.

Quicksilver Shifter
BMM80683 $204.99 Each

A top-of-the-line ratchet action shifter, with a reverse lockout (NHRA and IHRA legal). It is cable operated and has universal floor mounting. Neutral safety and back-up light switches, lighted gear indicator and chrome knob are all included. Compatible with reverse pattern valve bodies. Fits GM 3/4 speed auto, Ford 3-/4-speed auto, Chrysler 3-speed auto. Will fit Ford AOD with BMM40496 installation kit.

Megashifter
BMM80690 $227.99 Each

Reverse lockout meets NHRA and IHRA requirements and even works with reverse pattern valve bodies. Universal floor mount base can be trimmed to fit any floor. Includes shifting cable, neutral safety and back-up light switches, lighted gear indicator and polished aluminum T-handle. Fits most GM, Ford and Chrysler RWD 3-/4-apeed auto.

Transmission SuperCoolers

Pressure tested to 200 PSI with a low pressure drop, light and efficient SuperCoolers always assure that adequate fluid, regardless of viscosity, will return to the transmission.

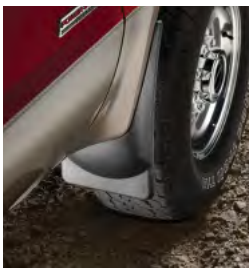
FloorLiner

The FloorLiner's patented, tri-extruded composition offers a rigid core, surface friction with the carpet and a tactile feel to the surface. The advanced surface incorporates channels that carry fluids and debris to a lower reservoir where additional channels minimize fluid movement while driving.

All-Weather Floor Mats

All-Weather Floor Mats, made from odorless material, include deeply sculpted channels to trap water, road salt, mud and sand. A proprietary resin prevents curling, cracking or hardening, even in sub-zero conditions. Anti-skid ridges prevent shifting and a protective, non-stick finish eases cleanup.

No-Drill MudFlaps



"Mounts in minutes" in most applications without tire/wheel removal or drilling. Contoured specifically for each vehicle model, No-Drill MudFlaps are molded from a proprietary thermoplastic resin.

Side Window Deflectors

Installation is quick and easy, with no exterior tape needed. WeatherTech® Side Window Deflectors are precision-machined to perfectly your vehicle. These low profile deflectors allows interior heat to escape.

AFS11141 $178.99 Each

High output, in-tank electric fuel pump is designed to satisfy the needs of popular EFI applications and bolts into most existing hanger assemblies. Lightweight, compact pump boasts over 30% more flow than most and retains factory wiring and mounting provisions. Pump includes all drop parts, hose, hose clamps and wiring harness. Offset inlet.

Injected Bypass Regulator
AFS13101 $157.99 Each

Engineered for medium to high horsepower setups with A1000, Tsunami or 700 HP fuel pumps. Compatible with gasoline or alcohol, base pressure is adjustable from 40-75 PSI. Regulator includes a 1/8"NPT port, one -6AN return port and two -10AN inlet ports.

Carbureted Adjustable Regulator
AFS13205 $93.99 Each

High flow, quick response regulator is compatible with the Street/Strip (SS) fuel pump. Adjustable from 5-12 PSI, regulator has 3/8"NPT inlet and outlet ports. Fittings are sold separately.

Billet In-Line Filter
AFS12301 $91.99 Each

Housing is 5.5" long by 2" in diameter with -10AN ports and a high-flow, 10-micron (fine) replaceable element. Recommended for use after fuel pump. Flows up to 2,000 lb/hr with a pressure drop of less than 1 PSI.

Carbureted Fuel Pump
AFS11203 $194.99 Each

Body and motor heat sink are made of anodized aluminum and motor housing is chrome plated. The SS Series pump provides 15 PSI and flows over 140 GPH with low amperage draw and requires a deadhead or bypass style regulator. Has 3/8"NPT ports. Ideal for 200-750 HP engines.

A2000 Fuel Pump
AFS11202 $398.99 Each

An integral, diaphragm controlled regulator dampens pressure spikes for smoother flow. Engineered for drag race applications with 500-2000 horsepower; the pump free flows more than 350 gallons per hour and has -10AN inlet and outlet ports with one -8AN return port. Compatible with gasoline or alcohol.

STEF'S FABRICATION SPECIALTIES

Fabricated Aluminum Transmission Pans

Fabricated .090" thick aluminum pans offer increased capacity and are significantly lighter than steel or cast aluminum pans. A 3/16" thick pan rail provides a superior sealing surface and each pan includes a magnetic drain plug, filter extension (where applicable) and fasteners.
